License renewal passed by guide dog

Dear Editor,

I am writing to express my concern about the process of renewing a license for a guide dog. When my dog was first trained, the process was straightforward and efficient. However, with each renewal, the process seems to become more complicated and time-consuming.

Last month, when I attempted to renew the license, I was required to provide additional documentation, such as a current health certificate and a photo of my dog. These requirements are not only unnecessary but also redundant. Moreover, the renewal process is not clearly outlined in the guidelines provided by your office.

I understand the importance of ensuring the safety and well-being of both the dog and the public. However, I believe that there is a need for a more streamlined and user-friendly process for license renewals. It would be helpful if your office could provide more detailed information and guidance on the renewal process.

Sincerely,
[Your Name]
